

Tenancy agreement - please quote in all correspondence -

Replacement of smoke alarms

Dear Tenants,

Techem, the company we commissioned to replace the smoke alarms, was unable to replace the smoke alarms in your flat despite the offer of several appointments.

In accordance with DIN 14676-1, these smoke alarms must be replaced at the latest after 10 years and six months.

Techem will notify you of an appointment for replacing the smoke alarms in the next few days. If you are unable to keep the proposed appointment, please arrange an appointment by using the digital contact option (QR code) in the letter from Techem or contact them by telephone:

Monday to Friday 8.00am to 6.00pm
Telephone number 0341 99784-688

Functioning smoke alarms warn you and the occupants of the house in the event of a fire. Please work with us in replacing the smoke alarms. Failure to co-operate will expose you and the occupants of the house to acute danger of death if a fire should break out.

Please take note of the enclosed information sheet.

Yours faithfully

on behalf of

Doreen Schultz
